linkedin.com/in/jagapathi-naidu-meesala

PROFILE

Aspiring Artificial Intelligence engineer with strong interest in Artificial Intelligence, Machine Learning, Data Science, and software development. Skilled in Python programming with a solid understanding of data structures, algorithms, and AI fundamentals. Passionate about solving real-world problems and building innovative technology-driven solutions.

EDUCATION

B.Tech in Artificial Intelligence and Data Science	2024 – 2028
Amrita Vishwa Vidyapeetham, Amritapuri	CGPA: 6.8
Higher Secondary Education (MPC)	2022 – 2024
Sri Chaitanya Vidyaniketan, Visakhapatnam	78%
Secondary Education (SSC)	2018 – 2022
Abhyas School, Vizianagaram	98%

SKILLS

Technical Skills	Non-Technical Skills
- Python, Java, C - HTML, CSS - PostgreSQL	- Problem Solving - Leadership - Communication

PROJECTS

Line Follower and Obstacle Detection Robot

Built an autonomous robot that follows a predefined path using IR sensors and detects obstacles using ultrasonic/proximity sensors. Programmed the microcontroller to make real-time navigation decisions, including stopping, turning, and rerouting when obstacles are encountered..

November 2025

Automatic OR-ing Power Selector using Op-Amps

Designed and implemented an analog circuit that automatically selects the higher-priority power source when multiple power inputs are available. Used operational amplifiers and switching components to ensure seamless transition between sources without manual intervention.

December 2025

Composites and Topology Optimization for Aircraft Structures

Applied composite material concepts and topology optimization techniques to design lightweight yet structurally strong aircraft components. Conducted analysis to reduce material usage while maintaining performance and safety requirements..

May 2025

Transformerless Power Supply

Designed a compact transformerless power supply circuit to convert high-voltage AC into low-voltage regulated DC for low-power electronic applications. Incorporated rectification, filtering, and voltage regulation stages to ensure stable output.

October 2024

CERTIFICATIONS

- Deep Learning in Python – DataCamp – 2026
- GenAI Powered Data Analytics Job Simulation – Tata Forage – 2025
- Soft Skills – Infosys Springboard – 2025
- Deep learnin in LLM – DataCamp – 2026
